

ISTA

Seed Quality Assurance

International Seed Testing Association Certificate of Accreditation

This is to certify that the ISTA Member Laboratory **HR03**

Seed Testing Laboratory

Centre for Seed and Seedlings

Croatian Agency for Agriculture and food (CAAF)

31000 Osijek

Croatia

is accredited to the ISTA Seed Testing Laboratory Accreditation Standard by ISTA in accordance with Article 15(c)(15) of the Articles of the International Seed Testing Association (ISTA).

The scope of accreditation includes:

- Sampling from the lot
- Purity and identification of other seeds
- Germination
- Moisture content
- Thousand-seed weight

as detailed in the accompanying appendix to this certificate. This accreditation is valid for three years commencing **18.05.2026** subject to continuing compliance with ISTA requirements. During this period accredited laboratory is authorised to issue ISTA Seed Analysis Certificates.

Wallisellen 21.07.2026

Dr. Ernest Allen, ISTA President

This certificate is only valid with the corresponding sticker

ISTA code HR03

Address Seed Testing Laboratory

Centre for Seed and Seedlings

Croatian Agency for Agriculture and food
(CAAF)

Usorska 19, Brijest

31000 Osijek

Croatia

Issued on 21.07.2026

Valid to 17.05.2029

Test: Object - Sampling/Testing principle

Sampling from the lot: Obtain a representative sample - Manual sampling

Specific field of application includes species of:

Grasses

Cereals

Small legumes

Pulses

Other agricultural crops

Vegetables, spices, herbs, and medicinal species

Of species mentioned under manual sampling

Grasses

Cereals

Small legumes

Pulses

Other agricultural crops

Vegetables, spices, herbs, and medicinal species

On species mentioned under Purity

2

ISTA Rules
Chapter

2/11

3/4

3/4/11

Purity and identification of other seeds on coated seeds: Determine the percentage composition and identity of species - Separation and weighing of fractions, determination of other seeds

Scope of ISTA Accreditation

Annex to the Accreditation Certificate - ISTA Standard Methods

ISTA code HR03

Test: Object - Sampling/Testing principle

Specific field of application includes species of:

ISTA Rules
Chapter

Germination: Determine the germination potential - Germination on 400 seeds

5

Grasses
Cereals

Small legumes

Pulses

Other agricultural crops

Vegetables, spices, herbs, and medicinal species

On species mentioned under Germination

Germination on coated seeds: Determine the germination potential - Germination on 400 seeds

5/11

Moisture content: Determine moisture content - Constant temperature oven method: fine grinding

9

Species of Table 9A

Moisture content: Determine moisture content - Constant temperature oven method: no grinding

Species of Table 9A

Moisture content: Determine moisture content - Constant temperature oven method: coarse grinding

Species of Table 9A

Thousand-seed weight: Determine weight per 1000 seeds - Counting and weighing

10

Grasses
Cereals

Small legumes

Pulses

Other agricultural crops

Vegetables, spices, herbs, and medicinal species

On species mentioned under Weight Determination

Thousand-seed weight on coated seeds: Determine weight per 1000 seeds - Counting and weighing

10/11
